

# DIRECT DONATION

## Let's Make A Difference

We won the lottery when our children got into LACES – one of the top public schools in the nation. Our school, students and teachers need our financial support to provide them with the opportunities they deserve.

There are approximately 1600 students at LACES. If each and every one of us made some kind of financial contribution (completely tax deductible), then together we really make a difference. Imagine if everyone gave even 100 dollars - that would be \$160,000! We are asking you to kick off the 2010- 2011 year with a financial gift to your school. No amount is too small, or too large!

Contributions that you give directly to Friends of LACES, departments (Health, Music, Art, and Science) and other parent organizations support essential programs at LACES. We provide enrichment/arts, assemblies, purchase science equipment and pay for labs, clay and art supplies, support professional development, match grant monies, support our website, build our library collection and improve our technology departments.

The suggested donation is \$500.00 per student, but we welcome any contribution that your family can make. Please support LACES. We are seeking 100% participation so send what you can. Those who can sponsor another child, please be generous. It is our responsibility to our children and their school.

Do it today! Our kids deserve the best we can offer!

Many companies and corporations offer matching grants. Please be sure to check with your employer to see if your donation can be matched by them.

Your donation is tax deductible ( TAX ID #93-1090541)
